

Current Sportdom

—By HEK—

Details have been arranged whereby "Home Run" Baker will return to the Athletics. Connie Mack, in a recent visit to the famous third sacker at his home in Salisbury, Maryland, made satisfactory arrangements assuring Baker's return to organized ball. It is possible, however, that he may be traded during the winter.

Princeton is now being touted as the coming football champion, although Cornell has not been defeated. Provided both these eleven go through their schedules without a blemish, it is hard to see just how the dopesters will be able to pick the real champ. However, it is too early to worry about that matter as there is a chance

for a radical change in the football situation before the close of the 1915 gridiron season.

Frank Butterworth, who played with Yale way back in 1895, has joined the Eli coaching staff. Butterworth used to enjoy the reputation of being one of the fiercest line buckers in the game and it was considered a great honor to play in his class.

No one who saw the Coffey-Moran bout in New York seems to question the action of Referee Brown in stopping the mill when he did. In fact, nearly everyone seems to appreciate the fact that to have permitted the bout to go farther might have resulted fatally to the fight from Dublin.

JAP SUBMARINES

TOKYO, Oct. 30.—According to Tokyo newspapers France has approached Japan with a proposition to take over two submarines which the Japanese government ordered at French shipyards before the outbreak of the war. Only the question of price remains to be settled.

It is stated in Washington that American packers have decided to

carry their case against British government over seizure of \$12,000,000 worth of meat and food cargoes before British Privy Council, highest British court of appeal.

R. L. Baits special United States attorney made first address in his life in a jury in New Haven case Tuesday. He is an ex-school teacher and law partner of Attorney General McGregory.

Rheumatism Easily Relieved By Cleansing the Blood

S. S. S. Gives Quick Relief
by Toning Up the Blood

Yes, but how? A natural question. The answer is that you must cleanse your blood by stimulating it to healthy, vigorous action, so that it will throw off the germs and impurities that cause Rheumatism. The action of the wonderful blood purifier, S. S. S., is to practically renew the life blood, give it vigor, stimulate the flow making it throw out the germs and the poison impurities. The excruciating pain of Rheumatism, whether it is the shooting, stabbing Sciatica, the crippling agony of muscular Rheumatism, or aching arms and legs that break up sleep will be entirely relieved by S. S. S. Don't use nostrums and drugs. Take the blood bath—Nature's blood tonic, S. S. S. Get it at any drugstore, but insist upon S. S. S. Let us tell you about blood diseases. Send for booklet "What the Mirror Tells," or if you are in a peculiar case, write S. S. S. Co., Atlanta, Ga., but begin treatment at once.

WATER SPRITES WILL EXEMPLIFY STRENGTH, GRACE AND DARING

"Neptune's Daughters," Six Sinuous, Svelte Sea Sprites
to Exhibit Beauty and Aquatic Ability in Sensational
Diving and Swimming Act at Arizona State Fair

There is always something vastly attractive about a beautiful woman in a bathing suit. It is not the suit, but the woman because when these gossamer are hung on a line to dry or perchance placed in a window on exhibition they draw but little attention of themselves. But fill them with a shapely sinuous woman and immediately public attention picks up to the extent that sometimes a small rim occurs. Woman, beautiful shapely woman, is the greatest attraction in the world. The modern athletic girl is more attractive even than the ordinarily beautiful woman, because she exemplifies grace, strength and daring. These wonderfully magnetic qualities

Three of the "Neptune's Daughters" who will be at Arizona's State Fair in service testing aquatic feats.

The Arizona State Fair this year has obtained the services of six of these Pacific coast beauties, who are noted for the three qualities given above, and who are shapely sufficiently to tempt an ascetic, or grace a beauty show. Every where they have displayed their aquatic ability this year they have been acclaimed winners. Their diving tricks are of the most sensational kind. All six of them are equally well at home on the land or in the water. They are perfect water sprites, "Neptune's Daughters" if ever such existed.

The picture given above is a splendid likeness of three of them. Costumed as they are in this picture, these young women will give daily exhibitions of diving and swimming before the great grand stand at the Arizona State Fair November 15 to 29. Their coming to Arizona marks an epoch in free attractions at public exhibitions in this state. Nothing like them has been seen before. They charm, amaze, thrill. In short they give an ideal exhibition and thus are an ideal attraction.

Collegians to Study Summer Ball

CHICAGO, Oct. 30.—That summer baseball is to receive the attention of the graduates and undergraduates of the Western Conference colleges this winter more than ever before became known when it was announced that a telegram from the "Daily Minnesota," published by the students of the University of Minnesota, had been received by the Daily Maroon, a University of Chicago publication, asking the Chicago paper to take a straw vote among the students on the summer baseball question. Similar telegrams it is said, were sent to student newspapers at other conference universities.

The request for the vote was based on a desire to ascertain the students' sentiments on the rule prohibiting students who earn money by playing ball from taking part in college athletics.

Boston Saw Four Red Sox Homers

Boston fans saw only four of the Red Sox players make home runs last season. George Ruth, Dick Hobbs, Larry Gardner and Joe Wood being the members of the Tribe of Caribbees who hit for the circuit at Fenway Field. Bobby had it on his contemporaries in that he twice smote for the grand tour before his own clientele. The four-bag smash made by Wood off Carroll Brown of the Yanks, at Fenway Field on June 26, meant a win for the Red Sox.

Of the ten other homers made by the new world's champions this year three were manufactured in New York three in Detroit, one in Washington,

one in Cleveland and one in St. Louis. Fenwick long pokes by Ruth in New York on June 2, off Warhop, and by Hooper in the same city on May 7, off Caldwell, settled the games in Boston's favor.

There wasn't any pitching staff that kept the new title holders from acting home run tribune. The Yank hurlers yielded five wallons for the grand tour, three were cleaned off the Tiger artillery, two off the Indian gunners and one each off Washington St. Louis, Philadelphia and Chicago moundmen. Of Boston's 14 homers this year 10 were made against right-handers and 4 against southpaws.

one and it is understood that the matter will be referred to the state organization which controls such matters. The Bisbee students fought hard all the way and that they should be obliged to line up against a combination of intelligences seems entirely unfair.

However, as the game stood, Bisbee was outclassed. The visitors repeatedly and consistently showed their ability to drive through the Bisbee line for consistent and long gains, as well as being capable of negotiating long gains by the aerial route. Bisbee high was hopelessly weak in this department of the game. As a matter of fact, most of the local school boys' long gains were made by Doyle and Captain Verforth. The latter played a nice, consistent and aggressive game but, as in the first game, the prime honors must be awarded to Harry Doyle who, time and again, tore through the opposing line and secured offensive for splendid advances.

As for Struthers proved a splendidly effective combination for the visitors in the negotiations of the forward pass and, several times, long gains resulting from such plays brought the Douglas supporters to a frenzy of enthusiasm.

Krisbaum of Bisbee high played a much better game than on the preceding Saturday. His tackling was of a better order calculated to drop the runner in his tracks and give him no chance to reach. The Bisbee high eleven, as a whole, showed a much

SMELTER CITY HIGH ELEVEN VANQUISHES HOME TEAM 42 TO 0

Visitors Superior to Bisbee High
in Every Detail; Local Students Say Visitors Used "Rings" and Will Protest.

Once more Bisbee high eleven submitted to defeat, yesterday afternoon, when they were obliged to succumb to the onslaughts of the superior team from Douglas. The final score was 42 to 0 and the tidies rolled up by the athletes from the Smelter City High indicates their marked superiority over the Bisbee team.

There is, however, another factor to be taken into consideration in considering the outcome of this contest. That is the question of eligibility affecting at least three of the Douglas high players. Bisbee students claim that at least three "rimers" took place in the visiting team, those mentioned being Jones, Struthers and Weekly. Struthers was the head particular luminary of the Smelter City high school eleven and, without him, it is easy to figure that the Bisbee outfit would stand a reasonable chance of winning.

This matter of eligibility is a serious one and it is understood that the

The DALTON ADDING MACHINE

Are your items Large or Small

There is a Dalton for \$125.00 that will handle anything below \$10,000.00. Possibly it is large enough for you. Other models of greater capacity and equipped with special features cost up to several times that amount; but whatever the price, the same high grade material and careful workmanship enter into each and every machine bearing a Dalton name plate.

The Dalton is the SIMPLEST of all adding machines—only ten keys. Awarded gold medal for SPEED at PANAMA-PACIFIC EXPOSITION. Does all that other machines can do—many things they can't. Only adding machine operable by touch method. Light, compact, strong and built to last a business life time.

A machine that simply adds and lists is good; but a machine that not only adds and lists but performs all manner of business calculations is infinitely BETTER.

Such a machine is the Dalton. With a Dalton, multiplication becomes as easy as addition. I shall be in Southern Arizona in the near future. Send me your name and address and let me show you how a Dalton can save you both time and money.
